List, normal and alerted text

- The three main colors used in this template are blue, red and green.
- You can easily define new colors and change template colors using the command:
`\definecolor{colorname}{rgb}{0.333, 0.333, 0.333}`
- This is some normal text, alerted text, **bold text** and *italic text*.
- This is an url: anthonycoache.ca.

Frame with multiple columns

With the `minipage` environment, you can put multiple columns on the same frame.

This can be useful if you want to comment a figure, a table or R code on the same slide. Be careful with the width of the `minipage` argument, otherwise you will not obtain two or more distinct columns. The sum of them needs to be less than 1.

640 x 360

10

Figures

Figure: This is an example of a figure, such as graphics and images not generated by R

640 x 360

Tables

Table: This is a table.

	Sciences	Biology	Whales	
I_1^\top	1	1	1	...
I_2^\top	0	1	1	...
I_3^\top	1	1	0	...
\vdots	\vdots	\vdots	\vdots	\ddots

Environments

Definition block

This is a definition block:

$$a^2 + b^2 = c^2.$$

Normal block

This is a normal block

Theorem block

This is a theorem block:

$$a^2 + b^2 = c^2.$$

640 x 360

References

With the `natbib` package, you can either refer to the book of Casella and Berger [1] or cite it between parentheses [2].

Then this is where you use your `references.bib` file. You can also add the `allowframebreaks` chunk options to put references on more than one page.

- [1] Casella, G. and Berger, R. L. (2002). *Statistical inference*, volume 2. Duxbury Pacific Grove, CA.
- [2] Rosenthal, J. S. (2006). *Struck by lightning: the curious world of probabilities*. National Academies Press.

Thank you!
